

**Mentalist**  
**Expert on Change**

Florian Ilgen stands at the crossroads of Artificial Intelligence, Leadership, and Change, providing his audiences with the crucial impulse for the future. The PhD chemist and bestselling author has always been fascinated by transformation—whether at the molecular level, in human behavior, or in businesses leveraging smart AI solutions to forge new paths.

His keynotes are more than just inspiring speeches—they are immersive experiences that ignite lasting enthusiasm. With his contagious energy and captivating stage presence, he engages even the farthest corners of the audience. It's no coincidence that Schwäbische Zeitung calls him the "Motivator." Every event featuring Florian Ilgen becomes an unforgettable highlight that doesn't just explain change but makes it tangible.

The secret behind his success lies in his unique EKM Model®—a powerful blend of expert knowledge, inspiring motivation, and engaging entertainment that turns his talks into transformational experiences. With a keen sense of storytelling and dynamics, Florian Ilgen takes his audience on a journey through profound insights that go far beyond theory and spark real change.

His focus on Artificial Intelligence and modern leadership concepts captivates decision-makers, teams, and entire organizations alike. He vividly demonstrates how smart strategies can not only accelerate customer acquisition but also drive meaningful, long-term transformation. While others hesitate, bold participants in his talks seize the opportunities of the AI revolution, gaining the critical competitive edge to stay ahead.

Anyone who experiences Florian Ilgen live immediately senses: This is someone who doesn't just talk about change—he embodies it and inspires others to do the same.
