
Dr. STEPHANIE HARE

Leading Consultant on Technology, Trends and Business Expert on Artificial Intelligence

Dr Stephanie Hare is a leading author, keynote speaker, commentator and consultant on technology, trends and business. From AI and tech ethics to the metaverse and cyber security, Stephanie enlightens and illuminates audiences, clients and readers about the dynamic changes unfolding around us.

The author of *Technology Is Not Neutral: a short guide to technology ethics*, a Financial Times best summer books of 2022, Stephanie brings academic rigour and credibility to her work, while her vibrant on-stage delivery enthral and entertains audiences around the world. She is also a highly accomplished Event MC and moderator – an expert in facilitating panels, whose warmth and humour elicit the best from guests and interviewees.

Stephanie Hare was selected for the BBC Expert Women programme and contributes regularly to BBC Television, including a new segment on Thursday nights called “Artificial Intelligence: Decoded”, where she analyses the week in AI. She also contributes to the BBC World Service programme “Business Matters”.

Stephanie has published in the Financial Times, The Washington Post, the Guardian/Observer, Harvard Business Review, and WIRED. Previously she worked at Accenture, Palantir, and Oxford Analytica, and held the Alistair Horne Visiting Fellowship at St Antony’s College, Oxford. She holds a PhD and MSc from the London School of Economics and Political Science (LSE) and a BA from the University of Illinois at Urbana-Champaign, including a year at the Université de la Sorbonne (Paris IV).
